S.T.A.R is a specially curated dance programme with the emphasis of teaching social etiquette, social awareness and respect for peers of the opposite gender. This safe and refreshing take on dance education has been tried and tested with our collaboration partner, Dancer's Dream Studio who has been running this dance syllabus with more than 500 young children from age 3 to 16 years old. Ballroom dancing is the future of dance education for our young ladies and gentlemen.
